Well run 33 (actually it was run 32, but that was the GM's mistake!) started at the RV point at Gumbet windmills fine views, under a big black cloud. We all thought our RA is away & his stand in wasn't in control of the weather, but at least he knew the punch line to his joke hehe!! We were all blown away by Kermit's mobile hash facilities unit (Old Dolmus). Captain Crease was "delayed" but redeemed himself by bringing along the South African contingency Nussy & visitor Ann. So just after 2pm we were called to the circle by the GM who got Lightfoot into the middle as he was the hare, asked any special features on the run & the usual answer a "nice flat & easy run!!"

So off down the hill we started with Culture Vulture off to a flying start only to go down the wrong road at check point one with Hose Handler going the long wrong way.

The ON-ON was actually down a narrow footpath off road on a steep hillside overlooking Gumbet (beautiful). The hashers had to negotiate rocks & gravelly slippery bits but all got safely down to the jetty. Then along the jetty along past Gumbets new sewerage works very impressive!! Round the headland & on up through the ruins ever going upwards.

The (stand-in) RA had worked his magic & blew all the black clouds away for the sun to come out & punish us up the hill!! There were beautiful wild flowers along the way but you had to careful not to trip over. As we kept on running Lightfoot said "If you look to the right you will see were I go swimming every day" & it was fantastic!! Too cold for me Brrrr!!

The trail was very well marked all the way to the finish back to the windmills, good old Lightfoot. We all returned red faced & puffing - even the short cutters, Pussy Galore & Co. We think it was their "energy drink" Vodka & Orange!!! (Lucky things).

The circle was called by GM & Lightfoot was called in for a DOWN-DOWN for setting a good run. Then Hose Handler called the GM in to do a DOWN-DOWN for being first home last time. Wild Rover got a DOWN-DOWN for being a competitive runner (giving up smoking, losing weight, getting fit) & being first home. Newcomer Richard was called in next for being a old newcomer having done one hash before 20 years ago. Then the virgins were called in Ann, Jill & June for a DOWN-DOWN - some only drank water (shame!!). Even Kermit with his great big Dolmus forgot to find room for the rubbish bags so a DOWN-DOWN was ordered for him. Pussy Galore, Captain Crease, Nussy, Ann, June, & Richard were called in the circle for a DOWN-DOWN for short cutting.

---

The ON-ON-ON was at Sue's Place in down town Gumbet through the "bomb" craters!! Very good food as well.

See you all at the next run, Sunday 4th April (Easter Sunday)

Hose Handler & Helmet Polisher.  
ON-ON

Unfortunately, CV's camera's batteries gave up the ghost. Nessie stood in as Hash Flash for the day, but unfortunately, her piccies aren't available yet (on Facebook!?!). The few taken by Wild Rover on CV's camera before the batteries konked are shown below).
