Location Yalikavak
Hares Semen and Carla
Scribe Second hand Dishwasher

It was supposed to be a sunny day but shame!!!! We should blame RA of course! He is the one responsible for the weather!! But he had very good excuse saying the hash should carry on in every weather, which is definitely true.

As a new born hash we were not expecting so many people anyway but good turn happened. We were 11 people. Culture Vulture, Virgin, Semen, Cem, 2nd hand dishwasher, Muta, Erhan, Tamer, Mustafa, Fatih and another new comer name?? sorry!!!

The run was very wet, also very romantic under the rain. It was not cold at all. We started to sing I'm Singing In The Rain. The song was very suitable for the day but the trail was not suitable for the rain, some of it had already disappeared. 2 new comers lost the way and back to bar before us the other hashers. To blame only the trail is not fair, they also preferred to be warm and dry place and drinking beer before everyone, but of course they got their punishment on the circle later on!!!

Back to run, at the top of the hill there was nice surprise was waiting for us, Carla brought the drinks up there for us, and there was a very nice view for the beer stop. Going down the hill was supposed to be nice but it was Shit!!!! Sorry for the language, but real shit was on the way everywhere, we had to jump and jump not to get that mess!!!

Well the hares told us there was short cut, but most of us found another short cut to get real short cut!!! Of course Semen noticed that and we got our down-down for this on the circle!!!

The circle was not too long because of the rain but was still nice. Short cutters, new comers everyone got a down-down for some reason. Good laugh and happy faces again, good reason to be a hasher!!! Carla got a down-down for our good memories in his bar called Sherlock Holmes a long time ago in Istanbul!! It was very nice to see him after so many years. There are many jokes again in the circle, I think Muta is learning more jokes for the circle.

Rain didn't let us stay more on the circle so we went back to our hash bar called Musti's place in Yalikavak. There was a beautiful atmosphere inside all together and we had more laughs and beautiful food in there.

So it was again another enjoyable, happy, beautiful hash, so thank you to hares and hashers to be part of it...

So see you everyone in Gumusluk, April 19, Culture Vulture and Virgin are preparing another enjoyable hash, so do not miss it!!!!

2nd handdishwasher on on on.....

PS: sorry for the spelling could be mistakes!!! (Most edited out by Culture Vulture).

Pictures in the Circle follow.

HASH TRASH
