HASH TRASH

Run 49
Date Sunday 24 October 2010
Location Güllük
Hares Bus Driver & Minibus Driver
Scribe Puusy Galore

Page 1 of 12

Finally arrived at the RV after a scenic tour of Yasemin Sitesi along with King Crapper, Pisser & Flasher in their cars. (Misled by our reading of directions). When the group was finally assembled GM called the circle with a DOWN-DOWN to first home last hash to Lightfoot (although it was pointed out that he did actually short cut !) The weather was warm & sunny. Thanks to RA. GM asked if we would think about suitable names for our 3 un-named hashers Jill, Tracey & John whilst on the run.

Hares looking as if they know what they are doing (NOT)

Hares were called into circle to tell us about the trail and we were told that rather than a Father Abraham stop there would be a 'Wacker stop' ????? that would be explained when we reached that point. Several back checks & holding checks to keep the pack together. As always the run would be not too long & on flat level ground - yeah who believes any hare? After some religious advice from Pisser - which led to Dolmus having his ears covered due to his age - ON ON was called and off we went from car park RV by the tennis courts - past the swimming pool and up & up through the winding lanes which serviced the villas.

Several back checks etc. before we arrived at the 'Wacker stop'. Where we were given a demonstration of some Hip Hop type dance moves from Dolmus which we were supposed to copy - much hilarity ensued before we were

Hashers looking as if they know what they are doing (NOT)

once again off on the trail. We continued through the sitesi & past the villa belonging to Bus Driver & family - DOWN-DOWN to come for not having beer stop at their home!!! We began to move downwards and reached the sea shore, following the trail onward to the RV where the circle was called.

Hares first into circle & when GM asked what we thought of the run it was met with universal shouts of rubbish - as per usual. Other DOWN-DOWNS then followed several mis-namers were in the circle for misuse of hash names these included Bus Driver & Mini Bus Driver; then hashers for getting lost en route to RV. (I wonder who got those?). Returnees Perky & Liqueur. Visitors Bus Driver & family and Niagra, who had hashed with us in Derekoj last week after the Nash Hash in Fethiye. Niagra also got a DOWN-DOWN for renting an apartment in Yalikavak for the winter therefore being able to hash with us for some weeks to come.

I got a DOWN-DOWN for mistakenly thinking we altered the clocks this weekend; which I shared with CV. As when I'd e-mailed him with my incorrect info he'd had taken it at face value before

checking & then having to re-send e-mails to all. (I had apologised by email have to blame it on my senior citizen status)

DOWN-DOWN went to Hose Handler for his newly painted BH3 sign that pointed the wrong way - oops. (Some of us get lost without being sent in the wrong direction). I know that Helmet Polisher also had a DOWN-DOWN but - my age related memory loss again - can't for the life of me remember what she'd done/not done !! (Then again it could be the Efes)

That's the way to go!

The un-named hashers also had DOWN-DOWNS to remind us just who we have to find appropriate names for. As they were in the circle John began to drink his Efes early leading to shouts of "Came too soon". So the naming mat & mug were produced and he now has his hash name!!!

He who "Comes Too Soon"

Final DOWN-DOWNS for the goody goodies then more religious advice from Pisser - Dolmus again being excluded.

The circle was closed with a reminder from the GM that our next hash would be in Gümüşlük & it is the FIFTIETH run for BH3 when a certain person will be receiving their 50 runs mug.

We left to have the ON ON ON at Eski Depo Restaurant on the sea front in Güllük. Bus Driver & co being the only ones who knew just where we were going led the convoy down into town & an enjoyable evening followed.

See you all for run 50

ON-ON
