Who said it was a crap run?

The meeting place at the Yalikavak football stadium which could not be missed with BH3 signs everywhere, including toilet seats. But for three late comers Muta, Yigir (virgin hasher) and Tamer it wasn't enough. GM welcomed us all and presented Ercan the FRB with DD last run. Hares Jack and Culture Vulture explained the simple marking with ease to which all hashers understood and then on the run tricked us all. Well Vacuum Cleaner and Dennis anyway!

The start of the run was towards the beautiful beach and along the coast, but then it just went crazy (says who – Ed), up and up and more up through rivers and thorns and thick scrub with marks pointed in all directions (really? - Ed) with back checks galore (2 on the whole run - Ed). Even toilet roll was placed to confuse the enemy (the hares explained it was there to assist hard to see flour – Ed). After what seemed a forever hill and no bakkal in sight for refreshment we reached the top and were greeted with a great view and Father Abraham (those who made it!).

The remaining 4 km (oh yeah! – Ed) was gladly down hill and lead to cold beer....oh that sweet beer taste put everyone's mind at rest from the hellish journey, this resulted in hares being given DD's each for making the impossible happen. Sugar Puff was given DD for only running to the first check then finding her way home via a shortcut (back the way she came – Ed). Visitors' Candy Man and Candy Ass were each awarded DD's for making it simply. The RA did the honours of calling all wallflowers (those who did not receive DD's) Paul, Carol, Primitive, Virgin, Joan into circle (it was actually Candy Man who did that – Ed). Then most hashers went for steak ON-ON-ON at Musti's (well those who could still move!).

Pictures this week courtesy Carol Abel, including some of interest along the route including a Buddhist Pagoda!

Who said it was a crap run?

This is the route we ran, walked, crawled, or wimped along.
