---

We were lucky with the weather warm & quite sunny. The days turn out very good 14. We had a visiting member (King Crapper) all the way from New Zealand (actually, he's resident in the UK - Ed). The late comers were as usual Wild Rover & Second Hand Dishwasher (lots of watches for sale in Bodrum) followed closely by Vacuum Cleaner, Sugar Puff, & Baby Sugar Puff. Wild Rover having fallen off the wagon & turning up late was rewarded by having to wear the toilet seat (Hashit) all the way!!!

Good old Semen (RA) who never lets us down with his "jokes" forgot the punch line again!!, but redeemed himself by producing good weather (who says 35°C is good weather – Ed). The hares laid a good trail taking in old streets & alley ways (down one of which Second Hand Dishwasher disappeared not to be seen until the home stretch!!). Going on to the very new parts of Bodrum (like the new jetty that is so expensive that no-one will use it!!- Ed). The p\*\*s stop came just in time & was very welcome. Three Lira did a fine job of supplying VERY cold beer & water with plenty of ice.

Then onto the sea front for the amusement of the tourists & locals. Some of us were very grateful for the well marked short cut (thanks Semen & Sugar Puff) it was VERY hot Phew!! Only four brave souls did the complete course (Ercan was unwell). In the circle King Crapper as guest did the first DOWN DOWN. Wild Rover was in the circle for four DOWN DOWNS being too eager to start drinking (but he is Irish). Aran had to do a DOWN DOWN from his new trainers and Vacuum Cleaner sang a fine "ditty" for that DOWN DOWN. There were more DOWN DOWNS for short cutters & full coursers!! We then went onto the Back Packers for a fine feast & just a few more beers!! Looking forward to Ercan's run hope he is feeling better by then.

Watch out Mark, Vacuum Cleaner had a DOWN-DOWN last run for the shortest Hash Trash in the history of Bodrum Hash. You nearly beat his record!!

HASHERS PLEASE NOTE:

**FROM THE NEXT RUN FOR THE SUMMER MONTHS WE WILL BE MOVING TO MONDAY EVENINGS AT 18:00 (i.e. 6 o'clock in the evening).**

Hopefully this will enable the various restaurateurs to attend the Hash.

Selection of Photos below – Welcome back Hash Flash (Second hand Dishwasher)

Here is a trace of the Full Route of Run Number 9. Please note that the ON-IN was over a third of the full route and had no checks. Hares please try to limit distance between checks to 0.8 to 1.2 km.

According to Three Lira:

The Temp on the Hash was 90.8°F average and 93.2 °F high. (For those other of you who have fully converted to new money that is 32.7°C average, and 34.0°C high).

Wind WSW speed 15.1 average WSW 17.2 maximum (don't know what these units are – Ed)

The distance Three Lira went (obviously nobody else was the same - false trails, wrong routes and short-cutters) was 4.26 miles (6.85km) and elevation +/- 414' (126 metres). But Three Lira went up a Bl\*%&y great wrong hill route (the 7 just above Kumbaççe middle left above).

Three Lira moving time (first home – just) was 44minutes 54 seconds.
